WELL POSITIONED

FY17 markets & revenue component	Today
Electric Utility and Communications market, via IKE 4	Established sales, marketing, integration and delivery teams in place. Quality and depth of sales pipeline increasing. Several factors in the U.S. provide a market tailwind, driving more & more infrastructure owners and third parties to have the need to measure and model distribution structures: such as communications fibre roll-out and regulation.
Signage and new markets, via Spike	Distribution channels, product & brand recognition developing quickly in the Signage market in the U.S., and emerging in Europe. Opportunity for larger enterprise sales in FY17. New vertical market opportunities provide upside potential, such as insurance and real estate verticals.
Construction and Contractor market, via Stanley Smart Measure Pro	Sales in North America via Lowe's at around 1,000 units per week. Orders received for launch into new European markets: UK, Germany and France, for delivery through 1H FY17. Still early in selling-through the high margin, add-on cloud subscription services
Contract revenue	In-Q-Tel backed development contract for U.S. intelligence customers will be complete Q1 FY17. Favourable initial response to the product from various government end-users. Next step is to target Spike for wider product acquisition programmes later in FY17, FY18 & FY19.
