Major Changes and General Overview of the 2023 National Electrical Safety Code® (NESC®)

(Presented as a Live Web Seminar)

Highlights

- Learn the Major Changes in the 2023 NESC®
- Provides a general overview of each part of the NESC®
- Designed for:
 - Engineers
 - Staking Technicians
 - Power Lineworkers
 - Communication Lineworkers
 - Safety Personnel
 - Inspectors
- Rich in graphics and practical applications

Conforms to the 2023 National Electrical Safety Code® (NESC®)

About the Seminar

Major Changes and General Overview of the 2023 National Electrical Safety Code (NESC) is a 1-day class focusing on the major changes in the 2023 edition of the National Electrical Safety Code (NESC). The class will cover in detail the major changes to the NESC 2023 edition and it will provide a general overview of each part of the NESC. During this 1-day class you will learn:

- Scope and purpose of the Code
- Major changes and general overview of the substation rules
- Major changes and general overview of the overhead line rules
- Major changes and general overview of the underground line rules
- Major changes and general overview of the work rules

Course Objectives

Upon successful completion of this course the learner will be able to:

1. Understand the organization, scope, purpose, and general application of the National Electrical Safety Code.
2. Apply the major changes in the 2023 NESC for substations, overhead lines, underground lines, and work rules.
3. Recognize how the Code is integrated into design and construction standards and operating practices.
4. Identify and take action to correct Code violations and safety hazards.
5. Design and build facilities that comply with Code requirements.
6. Understand the actions needed to work safely.

Who Should Attend

- Engineers
- Staking Technicians
- Power Lineworkers
- Communication Lineworkers
- Safety Personnel
- Inspectors

(Prior working knowledge of the NESC is not required)

Continuing Education Units

This course provides 0.6 Continuing Education Units (CEUs) or 6 Professional Development Hours (PDHs). This class has not been registered with any State Licensing or Education Board.

Class Format/ Learning Methods

- Presented via the web
- Lecture format
- Real time Q & A
- Presentation slides rich in graphics and practical applications
- Ample time for questions and class discussion

About the Instructor

David J. Marne, P.E., is a registered professional electrical engineer. Mr. Marne is the author of *McGraw-Hill's National Electrical Safety Code® (NESC®) 2023 Handbook* and is a nationally recognized speaker on the NESC.

He serves on NESC Subcommittee 4 Overhead Lines Clearances, Subcommittee 7 Underground Lines, and the Interpretations Subcommittee. He is company president and senior electrical engineer for Marne and Associates, Inc. in Bozeman, MT where he specializes in National Electrical Safety Code (NESC) training, OSHA training for power and communication workers, and expert witness services related to the NESC, the OSHA Standards for Power and Communication workers, and California's General Orders G095, G0128, and G0165.

Mr. Marne has over 35 years of experience in the utility industry engineering and managing transmission and distribution line projects, substation projects, electrical system planning studies, joint use (power and communication) projects, and providing training and expert witness services.

David J. Marne, P.E.

Class Schedule

Day 1

8:00 a.m.	Registration begins
8:30 a.m.	2023 NESC Major Changes and General Overview <ul style="list-style-type: none">• Introduction: Sections 01, 02, 03, 09• Part 1: Electric Supply Stations
10:00 a.m.	Break
10:15 a.m.	2023 NESC Major Changes and General Overview <ul style="list-style-type: none">• Part 2: Overhead Lines
11:45 a.m.	Lunch
12:15 p.m.	2023 NESC Major Changes and General Overview <ul style="list-style-type: none">• Part 2: Overhead Lines (continued)
1:45 p.m.	Break
2:00 p.m.	2023 NESC Major Changes and General Overview <ul style="list-style-type: none">• Part 3: Underground Lines• Part 4: Work Rules
3:30 p.m.	Adjourn

Benefits of ikeGPS Training

- Save on travel time and out-of office expenses.
- Entire departments can be trained together.
- The presentation can be designed to meet the needs of your organization.
- Training schedule can be modified to meet your needs.

Enrollment/Pricing/Cancellation

- Please contact us for a quote to have this class presented as a live webinar or presented in person at your utility or association.
- Our live Webinar is typically economical on a per person basis when there are approximately 10 or more individuals to train.
- Our In-House presentation is typically economical on a per person basis when there are 15 or more individuals to train. For in-house training, the utility or association provides the conference room and any desired meals and beverages for the attendees.
- Class cancellations can be made by contacting ikeGPS at any time prior to the presentation date. No payment is due until the class is completed.

Class Materials

- Attendees will receive a pdf copy of the class presentation slides. The presentation materials are copyrighted by ikeGPS with permissions from McGraw Hill LLC. Class materials are reserved for class attendees only and may not be duplicated.
- Attendees are encouraged (but not required) to bring a copy of the NESC Codebook and McGraw Hill's NESC Handbook.
- These books are available for purchase on Amazon.
